- Screening Systems & Grit Removal
- Field Tested Reliability
- Heavy Duty, Simple, Innovative Screening Solutions That Really Work!
- Made in the USA 

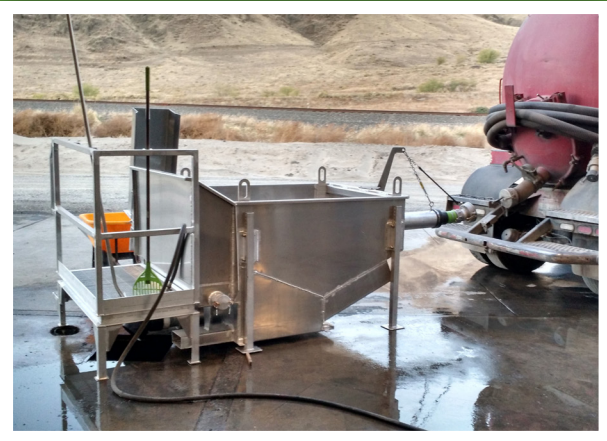

## SIMPLE

Tired of not finding a septic receiving station that works and is affordable?

We developed these effective solutions to remove trash from septic and grease trap waste. Can be setup virtually anywhere. Simply connect the receiving hose to your pump truck.

Receiving stations are designed for gravity offload. Septage and grease are screen filtered to remove 99% of trash.
